

**BronchUK: Clinimetric properties of Outcome Measures in  
Bronchiectasis in the UK**

**Welcome**

Dear Investigators,

Happy Christmas! Just a quick update for the BronchUK Clinimetric study as 2015 is coming to an end.

Please take a moment to read and share it with other study team members at your site.

Christmas!**

## **News Update**

### ***Patient Recruitment***

Two participants have been recruited and completed Visit 1 in Belfast.

There is a potential participant booked in Brompton 23<sup>rd</sup> Dec and so far another four participants scheduled for the beginning of Jan 2016 between Belfast City Hospital and Royal Brompton.

## **Important Reminders**

- All sites to contact lead site in Belfast when you know your Ecomedics machine will be available in order to schedule your SIV.
- The lead site in Belfast will assist others in obtaining LCI training and their LCI qualifications.
- All sites to alert lead site when participant recruited.
- All sites open to recruitment have committed to bi-weekly teleconferences initially until trial established at site.
- Scheduling of exacerbation visits should be discussed with lead site to ensure consistency across sites.

## **Key Study Contacts**
